Fleet Management Products

Networkfleet offers industry leading [fleet management](#) products that improve fleet operating efficiency by reducing fuel consumption, maintenance expenses and vehicle emissions. With [GPS tracking](#) and [remote engine diagnostics](#), the rugged, automotive-grade hardware of Networkfleet's products showcase our commitment to superior standards in engineering.

3500

GPS Tracking + Diagnostics = Complete Fleet Management Solution

The Networkfleet 3500 offers the powerful combination of GPS tracking and patented remote diagnostics. Your dispatchers will know where a vehicle is while your mechanics monitor when the vehicle will need service. The device also includes:

- [Engine Diagnostics](#) - The 3500 has patents around how it interfaces with the engine computer of a vehicle to provide diagnostic information remotely.
- [Sensor Capability](#) – With sensors, fleet managers can get additional diagnostic data on their vehicles by detecting various voltage events.
- [Plug & Play Installation](#) - Easy to install to the OBD-II engine computer, the 3500 does not require any wire splicing.
- [Roadside Assistance](#) - A complete roadside assistance package is included at no additional cost with your Networkfleet 3500 service.

Take advantage of the full reporting suite that the 3500 has to offer. Contact our sales team at 858.410.5778 for an ROI Assessment or [click here](#).

4200

GPS Tracking = Low Cost Fleet Monitoring

The Networkfleet 4200 is designed with the interface that the 3500 also uses but does not include engine diagnostic information or roadside assistance.

Begin tracking your fleet today. Contact our sales team at 858.410.5778 or [click here](#).

About Networkfleet

Networkfleet is a leading provider of wireless fleet management services that improve fleet operating efficiency by reducing fuel consumption, maintenance expenses and vehicle emissions. The company's technology combines patented remote diagnostic monitoring with GPS-based Automatic Vehicle Location (AVL) systems. With access to more than 50 patents issued or pending, the company received the 2008 AeA High Tech award and was a finalist in Connect's 2008 Most Innovative Product Award for clean technology. Founded in 1999, Networkfleet is a wholly-owned subsidiary of Hughes Telematics, Inc. and is headquartered in San Diego, CA.
